**Bid Comments:**

**Question:** The specifications call for there to be manual locking hubs required, however, if Two and Four-Wheel drive vehicles are to be allowed, manual locking hubs are not available on two-wheel drive vehicles. Please clarify.

**Answer:** To clarify, the KCATA will accept vehicles without manual locking hubs that are Two-Wheel drive. Four-Wheel drive vehicles must have manual locking hubs unless there is a valid reason for deviating from the standard. The KCATA will consider bids with deviations to the standard on a case-by-case basis, especially when asked during the question period.
