

ADDENDUM NO. 1
IFB #G25-7018-26
Kansas City Area Transportation Authority (KCATA)
Lighting & Electrical Services

Issue Date: July 8, 2025

This Addendum is hereby made a part of the Bidding Documents and Project Documents to the same extent as if it was originally included therein and is intended to modify and/or interpret the bidding documents by additions, deletions, clarifications or corrections. The Contractor shall acknowledge in the proposal the receipt of this Addendum.

Q: Are any of the original 45 MAX stations along Main & Grand Street included in this project?

A: No.

Q: Are the (3) TIGER stations included in this project? Gladstone (2)/Blue Ridge Crossing?

A: No.

Q: Will the conductive concrete scope be permanently removed from this project?

A: Yes, it is completely removed as of now.

Q: Please explain the locations in the excerpt below. For instance, on #5, it lists 19 locations but only one address. Should the information for 'Main Street MAX Stops' and 'State Avenue Connex' stops be removed?

A: The 3 Main Street MAX stops should be permanently removed, as well as the 16 State Avenue Connex stops, leaving only the stop at 75th/Troost in exhibit 5 and the 31st/Troost location in exhibit 6.

5. MAX kiosk locations are as follows:

In addition to the above standard MAX marker and shelter, two (2) Main Street MAX stops, one (1) Troost Street Max stops, and Sixteen (16) State Avenue Connex stops are currently served only with an information KIOSK. Information kiosks contain LED lights, transformers and real time information signs. These kiosks are located at:

- a. 75th & Troost

6. MAX Park & Ride facilities are as follows:

KCATA currently has four (4) Park N Ride facilities, three (3) on the Main Street MAX line and one (1) on the Troost Street Max line. They have park and ride signs that are internally illuminated and connected by underground conduit to the main circuit panel in the MAX marker as well as parking lot lighting. A matrix showing the components at each MAX station will be provided after award as well as utility providers at that station.

- a. Troost MAX Park & Ride facilities
 - 31st & Troost

Q: Is certified payroll required? If so, what system do you use? Are paper copies sufficient?

A: **This would only be applicable in the case of a major repair/project that is not in the scope of the contract.**

Q: Are the State Avenue (KCK) Connex stations excluded from maintenance and for locating services?

A: **The State Ave and Connex stations are excluded from maintenance, however the executive team has decided to leave the KS locates in the project due to potential construction ventures with UG.**

Q: Are any of the stations or materials currently under warranty?

A: **No.**

Q: Could you please provide cut sheets, wiring diagrams, schematics, or blueprints? These should be based on the existing conditions.

A: **Please see attachments to the bid.**

Q: Please include specifications for the materials needed, including the brand and type.

A: **We don't have any specific brands/types. We would accept whatever will work with those components.**

Q: Is this project prevailing wage? If so, what Wage Order?

A: **No, this is only applicable if you are to do a major repair or project stemming from something found in an inspection (at that point, we would be putting that repair up for bid and prevailing wage would apply).**

Q: Can you confirm which numbers are correct below? An earlier section mentions 49 stations for Troost with 41 having electrical. It also mentions 'Blue Highlighted Stations', what document is that referring to with blue highlights?

A: They will be the 45 stations below:

Station Name/Address	Station Location	Northbound/Southbound & Station Count
Wyandotte & 11th	11th & Wyandotte SW corner next to Marriot Hotel	Terminus 1- TS
Government District 415 E 12th St	12th & Locust SW corner- existing bus stop	SB 4- TS
