Project NO# G19-6009-23  
BULK ANTIFREEZE & DIESEL EXHAUS FLUID (DEF)

ADDENDUM 1

Issue Date: July 17, 2019

---

This Addendum is hereby made a part of the Invitation for Bids to the same extent as if it was originally included therein and is intended to modify and/or interpret the proposal documents by additions, deletions, clarifications or corrections. The Contractor shall acknowledge in the proposal the receipt of this Addendum.

---

**BID QUESTIONS/COMMENTS:**

KCATA owns a 2000-gallon fixed cylindrical galvanized steel tank for anti-freeze and owns a 725-gallon fixed square, polymer tote with a metal box frame for the diesel exhaust fluid.

**Question:** How many gallons of DEF do you currently store on site?

**Answer:** The DEF tank is 725 gallons. We usually order around 400/450 gallons at a time. It is pumped off from a totes. The anti-freeze tank is 2000 gallons. It is pumped off a truck.

**Question:** Do you have any specific delivery requirements?

**Answer:** See Attachment A Specification/Scope of Work.

**Question:** What are your receiving hours for DEF delivery?

**Answer:** Deliveries need to be made between 7am-3pm. Deliveries made within 48 hours after receipt of order.

**Question:** How are you currently getting DEF deliveries? (Totes or Bulk)?

**Answer:** Totes.

**Question:** Will the vendor be responsible for providing equipment?

**Answer:** Vender is responsible for supplying equipment for delivery if needed.

**Question:** Would you be wanting this in true bulk (tanker loads) or totes/drums for the Antifreeze?

**Answer:** To be delivered in bulk but not all at once.

**Questions:** I noticed in part E. Tech Specifications: that you are specifically looking for a green antifreeze. The green antifreeze is old technology and is not recommended for newer engines.

**Answer:** Antifreeze spec. is per our scope, most of the fleet uses this type and we add the inhibitors our self.

**END OF ADDENDUM 1**
