REQUEST FOR QUOTATIONS (RFQ) #G21-7015-26

KCATA CENTRAL SERVICES SUPPLY OF BULK ANTIFREEZE AND DIESEL EXHAUST FLUID (DEF)

ADDENDUM #1

Issue Date: August 23, 2021

This Addendum is hereby made a part of the Request for Quotations to the same extent as if it was originally included therein and is intended to modify and/or interpret the proposal documents by additions, deletions, clarifications, or corrections. The Contractor shall acknowledge in the proposal the receipt of this Addendum.

General Information

The following is KCATA's response to questions submitted by potential proposers.

RFQ Clarifications

1. Q. What are the required minimum and maximum delivery volumes in gallons?
A. The tank size is 1,500 gallons and we order based off of the depth of the fluid in the tank. We place an order when the tank reached 17 inches and that typically equates to a 1,400 gallon delivery.
2. Q. What is the lead time for delivery from date of order? Is 48 hours firm or is there room for negotiation?
A. Due to our point, 48 hours is required for delivery so that we do not run out.
3. Q. Must the product be concentrated or will pre-mixed 50/50 be an acceptable product?
A. We require concentrated because we mix our own. The mix changed based on the time of year; we do not run 50/50 all the time.
4. Q. Tank quantity and tank size for the Diesel Exhaust Fluid.
A. The DEF tank is 725 gallons.
5. Q. Please provide tank types. (above ground or below)
A. The tanks are above ground.
6. Q. are KCATA's tanks monitored?
A. The tanks are monitored by a float that is in the tank.
