Notwithstanding the foregoing, in response to a formal request for information, the KCATA reserves the right to release any documents if the KCATA determines that such information is a public record pursuant to the Missouri Sunshine Law.

3.10 Disadvantaged Business Enterprise (DBE) Requirements

- A. It is the policy of KCATA and the United States Department of Transportation (USDOT) that Disadvantaged Business Enterprises (DBE's), as defined herein and in the Federal regulations published as 49 CFR Part 26, shall have an equal opportunity to participate in DOT-assisted contracts. It is also the policy of KCATA to:
1. Ensure nondiscrimination in the award and administration of DOT-assisted contracts;
 2. Create a level playing field on which DBE's can compete fairly for DOT-assisted contracts;
 3. Ensure that the DBE program is narrowly tailored in accordance with applicable law;
 4. Ensure that only firms that fully meet 49 CFR Part 26 eligibility are permitted to participate as DBE's;
 5. Help remove barriers to the participation of DBE's in DOT assisted contracts;
 6. To promote the use of DBE's in all types of federally assisted contracts and procurement activities; and
 7. Assist in the development of firms that can compete successfully in the marketplace outside the DBE program.
- B. Funding for projects under these contracts may be funded in part by the federal agencies (i.e., Federal Transit Administration (FTA), Federal Emergency Management Administration (FEMA)), or may be a combination of funds appropriated by the state, county, or city governments. *Federally funded projects will be subject to DBE and SBE requirements. For projects funded by other sources, MBE, WBE or SLBE requirements will apply.*
- C. **This project is federally funded. A 24% Disadvantaged Business Enterprise (DBE) goal is established for the project.**

- D. **Non-discrimination.** Proposers shall not discriminate on the basis of race, color, creed, age, sex, sexual orientation, national origin or disability in the performance of this project. The Proposer shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the Proposer to carry out these requirements is a material breach of the resulting contract, which may result in the termination of the contract or such other remedy as KCATA deems appropriate.
- E. **Disadvantaged Business Enterprise Certifications.** This program applies to federally funded projects. KCATA will only recognize firms that are certified as DBEs under the DOT guidelines found in 49 CFR Part 26. Firms must be certified as a DBE by a member of the Missouri Regional Certification Committee (MRCC) , which includes KCMO, MoDOT, City of St. Louis, Metro in St. Louis or KCATA. A list of MRCC certified firms may be found on MoDOT's website at <https://www.modot.org/mrcc-directory>. Firms may also be certified through the Kansas Department of Transportation's (KDOT) DBE Program. The KDOT directory of certified firms may be found at <https://kdotapp.ksdot.org/dbecontractorlist>. *MBE and WBE certifications from other agencies will not be counted toward DBE participation.*
- F. **DBE Participation Credit.** DBE firms may participate as Prime Contractors, Subcontractors or Suppliers. The following shall be credited towards achieving the goals, except as provided herein:
1. The total contract dollar amount that a qualified DBE Prime Contractor earns for that portion of work on the contract that is performed by its own workforce, is performed in a category in which the DBE is currently certified and is a commercially useful function as defined by the Program. ***Under U.S. DOT DBE Program, DBE firms acting as Prime Contractors must perform a minimum of thirty percent (30%) of the project/contract value, including any amendments.***
 2. The total contract dollar amount that a Prime Contractor has paid or is obligated to pay to a subcontractor that is a qualified DBE; and
 3. Subcontractor participation with a lower tier DBE subcontractor; and
 4. NO CREDIT, however, will be given for the following:
 - a. Participation in a contract by a DBE that does not perform a commercially useful function as defined by the Program; and
 - b. Any portion of the value of the contract that a DBE Subcontractor subcontracts back to the prime contractor or any other contractor who is not a qualified DBE; and
 - c. Materials and supplies used on the contract unless the DBE is responsible for negotiating the price, determining quality and quantity, ordering the materials and installing (where applicable) and paying for material itself; and
 - d. Work performed by a DBE in a scope of work other than that in which the DBE is currently certified.
- G. **Good Faith Efforts.** Failure to meet the contracted DBE participation commitment without documented evidence of good faith efforts may result in termination of the contract.

1. In evaluating good faith efforts, KCATA will consider whether the Proposer has performed the following, along with any other relevant factors:
 - a. Soliciting through all reasonable and available means (e.g., attendance at pre-proposal conferences, advertising and/or written notices) the interest of all certified DBEs who have the capability to perform the work of the contract. The Proposer must solicit this interest within sufficient time to allow the DBEs to respond to the solicitation. The Proposer must determine with certainty if the DBEs are interested by taking appropriate steps to follow up initial solicitations. Copies of the solicitation efforts (dated facsimiles, advertisements, emails) must be submitted.
 - b. Selecting portions of the work to be performed by DBEs in order to increase the likelihood that the DBE goals will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate DBE participation, even when the prime contractor might otherwise prefer to perform these work items with its own forces.
 - c. Providing interested DBEs with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation.
 - d. Negotiating in good faith with interested DBEs.
 - e. It is the Proposer's responsibility to make a portion of the work available to DBE subcontractors and suppliers and to select those portions of the work or material needs consistent with the available DBE subcontractors and suppliers, so as to facilitate DBE participation. Evidence of such negotiation includes the names, addresses, and telephone numbers of DBEs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional agreements could not be reached for DBEs to perform the work.
 - f. A Proposer using good business judgment would consider a number of factors in negotiating with subcontractors, include DBE subcontractors, and would take a firm's price and capabilities as well as contract goals into consideration. However, the fact that there may be some additional costs involved in finding and using DBEs is not in itself sufficient reason for a Proposer's failure to meet the contract DBE goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the bidder of the responsibility to make good faith efforts. Prime contractors are not, however, required to accept higher quotes from DBEs if the price difference is excessive or unreasonable.
 - g. Not rejecting DBEs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The contractor's standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations (for example union vs. non-union employee status) are not legitimate causes for the rejection or non-solicitation of bids in the

contractor's efforts to meet the project goal.

- h. Making efforts to assist interested DBEs in obtaining bonding, lines of credit, or insurance as required by the KCATA or contractor.
 - i. Making efforts to assist interested DBEs in obtaining necessary equipment, supplies, materials, or related assistance or services.
 - j. Effectively using the services of available minority/women community organizations; minority/women contractors' groups; local, state, and Federal minority/women business assistance offices; and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and placement of DBEs.
- 2. In determining if the Contractor did use good faith efforts in securing DBE Participation, KCATA may request copies of each DBE and non-DBE subcontractor quote in the event a non-DBE subcontractor was selected over a DBE for work on the contract.

H. **Request for Modification, Replacement or Termination of Disadvantaged Business Enterprise (DBE) Project Participation.** Contractor is responsible for meeting or exceeding the DBE commitment it has proposed for the project and as amended by any previously approved Request for DBE Modification/Substitution. Any Change Orders or amendment modifying the amount Contractor is to be compensated will impact the amount of compensation due to DBEs for purposes of meeting or exceeding the Proposer commitment. Contractor shall consider the effect of a Change Order or amendment and submit a Request for Modification/Substitution if the DBE commitment changes.

- 1. Termination Only for Cause. Once the contract has been awarded; Contractor may not terminate a DBE subcontractor without KCATA's prior written consent. This includes, but is not limited to, instances in which a Contractor seeks to perform work originally designated for a DBE subcontractor with its own forces or those of an affiliate, a non-DBE firm, or with another DBE firm.
- 2. Good Cause. Good cause includes the following circumstances:
 - a. The listed DBE subcontractor fails or refuses to execute a written contract; or
 - b. The listed DBE subcontractor fails or refuses to perform the work of its normal industry standards. Provided, however, that the good cause does not exist if the failure or refusal of the DBE subcontractor to perform its work on the subcontract results from the bad faith or discriminatory action of the Prime Contractor; or
 - c. The listed DBE subcontractor fails or refuses to meet the Prime Contractor's reasonable, nondiscriminatory bond requirements; or
 - d. The listed DBE subcontractor becomes bankrupt, insolvent, or exhibits credit unworthiness; or
 - e. The listed DBE subcontractor is ineligible to work on public works projects because of suspension and debarment proceedings pursuant to 2 CFR Parts 180, 215 and

1200 or applicable state law; or

- f. The DBE subcontractor is not a responsible contractor; or
 - g. The listed DBE subcontractor voluntarily withdraws from the project and provides the Prime Contractor written notice of its withdrawal;
 - h. The listed DBE is ineligible to receive DBE credit for the type of work required;
 - i. A DBE owner dies or becomes disabled with the result that the listed DBE contractor is unable to complete its work on the contract;
 - j. Other documented good cause that compels KCATA to terminate the DBE subcontractor. Provided the good cause does not exist if the Prime contractor seeks to terminate a DBE it relied upon to obtain the contract so that the Prime Contractor can self-perform the work for which the DBE contractor was engaged or so that the Prime Contractor can substitute another DBE or non-DBE contractor.
- 3. Before submitting its request to terminate or substitute a DBE subcontractor, the Prime Contractor must give notice in writing to the DBE subcontractor, with a copy to KCATA, of its intent to request to terminate and/or substitute, and the reason for the request.
 - 4. The Prime Contractor must give the DBE five days to respond to the Prime Contractor's notice and advise the KCATA and the Contractor of the reasons, if any, why it objects to the proposed termination of its subcontract and why KCATA should not approve the Prime Contractor's action. If required in a particular case as a matter of public necessity (e.g., safety), the response period may be shortened.

SECTION 4 PROPOSAL SUBMISSION, EVALUATION AND AWARD

4.1 Introduction

The intent of the RFQ is to encourage submittals that clearly communicate the Consultants' qualifications for the Project. Proposals should provide information in a concise, well written, well-organized manner containing only information relevant to this Project. All proposals should follow the format specified below as this will assist the evaluation committee in determining the most highly qualified consultant team. Firms are encouraged to submit only proposal material that is related to the consultant services and scope cited. Including extra marketing materials and publications is discouraged.

4.2 Proposal Format

- A. Volumes shall be submitted in the following order:
 - 1. Volume 1 - Technical Proposal
 - 2. Volume 2 – Contractual
- B. Proposers shall submit each Volume as a separate document in .pdf format. Each document is to be labeled with the project number, volume number and the Proposer's name. Three-ring binders or clips are acceptable (no spiral binding).
- C. **No Cost/Price Proposal information shall be included within these two volumes. After evaluation,** only the firm with the highest evaluation ranking will be required to submit their price proposal See Section 4.7.

4.3 Volume 1 - Technical Proposal

- A. The Technical Proposal page limit is 25 pages. The Proposer may choose to allocate pages between any of the evaluation criteria as long as the Proposal does not exceed 20 pages. If a Proposer submits a proposal exceeding this limit, KCATA will consider the pages up to the allowable number and discard all subsequent pages.
- B. One page is defined as one side of a single, 8-1/2 x 11" page, with 11-point minimum font size for the substantive text. Any page over this size will be counted as two (2) pages. Any page or partial page with substantive text, tables, graphics, charts, etc., will be counted as one (1) page. Proposers may use their discretion for the font size of other materials (e.g., graphics, charts).
- C. The following are **excluded** from the page count:
 - Title Page
 - Table of Contents
 - Letter of Transmittal
 - Tabs or Indices
 - Additional Lists of References
 - Resumé, certifications, and background information (maximum of two pages per individual)
- D. Each technical proposal should enable the evaluation committee to make a thorough evaluation

and arrive at a sound determination that the proposal meets KCATA's requirements. Each technical proposal must be so specific, detailed, and complete as to clearly and fully demonstrate that the Proposer has a thorough knowledge and understanding of the requirements and has valid and practical solutions for technical problems. Statements which paraphrase the requirements or state that "standard procedures will be employed" are inadequate to demonstrate how the Proposer will comply with the requirements of this procurement.

E. To achieve a uniform review process and obtain the maximum degree of compatibility, technical proposals must be organized as follows:

1. Letter of Transmittal. The letter should be addressed to Kristen Emmendorfer, KCATA Manager of Procurement, and signed by a corporate officer with authority to bind the firm. The letter must contain the following:
 - a. Identification of proposing firm(s), including name, address, telephone number(s) and email address of each subcontractor.
 - b. List of key personnel that will be associated with this project.
 - c. Proposed working relationship among firms identified (i.e., Prime, Sub-consultant).
 - d. Acknowledgement of Receipt of Addenda (if any).

 - f. Briefly state the firm's understanding of the services to be performed and make a positive commitment to provide services as specified.
2. Title Page. Show the RFQ Number and title, the name of the firm, address, telephone number(s), email address, fax number(s) and date.
3. Table of Contents. Clearly identify the materials submitted by section and page number.
4. General Business Background. Provide a brief synopsis of the Proposer's and major sub-consultants businesses, including when and where incorporated, major business activities, and a listing of the Officers of the Company. State whether the firm is local, regional, or national and how long the firm has been in existence under current ownership/management and where the offices are located. Identify and state how long the firm has provided the types of services requested in this RFQ.
5. Project Manager and Key Personnel Experience and Qualifications.
 - a. This section should demonstrate the Proposer's experience, skills and qualifications and professional certifications of the Project Manager and other key personnel identified to work on the major components and tasks of the Project.

Include what percentage you foresee each person on the team will be dedicated to the project. This should include all planned subcontractors and staff.

- b. Describe in detail direct experience in successfully completing hazardous material assessment services for projects of similar size and complexity. Describe direct experience implementing government-funded and regulated projects with multiple stakeholders, meeting schedules, budgets, and extensive federal reporting requirements. Detail any added services that the Proposer will provide that are not specifically requested in this RFQ. Include any special knowledge, skills and abilities you believe are required for this project.
- c. Provide resumés (limited to no more than two (2) pages per individual) for the proposed Project Manager, and all personnel considered vital to provide the deliverables specified. Include this information for each sub-consultant. Include copies of Missouri Licenses.
- d. Identify primary office location for the Project Manager and key staff members. Define typical response time to requests for unscheduled/unforeseen meetings and coordination efforts that may arise during the project.

State management approach and techniques required for the implementation and control of the work.
- b. Provide an organizational chart depicting how the project will be staffed in all functional areas. Indicate number of employees of each type. If applicable, state how project staff will be supported by regional or national staff and reporting relationships between project staff, other firms' management staff and subcontractors. A statement addressing availability and commitment of the Project Manager, Key Personnel and vital resources for the Project shall be provided.
- c. Provide a proposed project schedule for conducting survey, assuming normal workday hours. Note that Fleet may restrict access around buses during the busiest daily moving times of early A.M. and mid-late P.M. The graphic included in the RFQ should be a high-level, logic-driven schedule depicting the overall proposed approach to an efficient design.
- d. Provide confirmation that all equipment required to perform the scope of work is included. This includes but is not limited to equipment lifts, ladders, personnel safety gear, traffic control devices, etc.

Proposers should review the sample terms and conditions and identify any exceptions to the clauses included therein and provide requested changes. Any exceptions to the Terms and Conditions must be identified in the Technical Proposal documents. If there are no exceptions, state this in the Proposal. The Proposer's submittal may be considered non-responsive in the event KCATA and Proposer do not reach mutual agreement on any exceptions noted. Federal Transit Administration terms are not negotiable.
- (b) Proposers are asked to submit the sample terms and conditions in Word format (document provided by KCATA) with exceptions and suggested language redlined. This is a separate document.
- c. **Omissions.** The Contractor will be responsible for providing all services which are necessary within the general parameters described in this RFQ, and consistent with established industry practices, regardless of whether those services are specifically mentioned in this RFQ or not. The Proposer should clearly identify any omissions to the requirements set forth in the RFQ.

- C. If negotiations are successful, the selection Committee will recommend the best-qualified firm/team to KCATA's Executives and/or Board of Commissioners for final authorization.

Under these circumstances, KCATA retains the right to recover all costs of defense from the Contractor.

If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, KCATA, after setting up a new delivery or performance schedule, may allow the Contractor to continue work, or treat the termination as a termination for convenience.

D. **Opportunity to Cure.** KCATA in its sole discretion may, in the case of a termination for breach or default, allow the Contractor an appropriately short period of time in which to cure the defect. In such case, the written notice of termination will state the time period in which cure is permitted and other appropriate conditions. If Contractor fails to remedy to KCATA's satisfaction the breach or default of any of the terms, covenants, or conditions of this Contract within the time period permitted, KCATA shall have the right to terminate the Contract without any further obligation to Contractor. Any such termination for default shall not in any way operate to preclude KCATA from also pursuing all available remedies legal and non-legal against Contractor and its sureties for said breach or default.

E. **Waiver of Remedies for any Breach.** In the event that KCATA elects to waive its remedies for any breach by Contractor of any covenant, term or condition of this Agreement, such waiver by KCATA shall not limit KCATA's remedies for any succeeding breach of that or of any other term, covenant, or condition of this Agreement.

A delay is unavoidable only if the delay was not reasonably expected to occur in connection with or during the Contractor's performance, and was not caused directly or substantially by acts, omissions, negligence, or mistakes of the Contractor, the Contractor's suppliers or their agents, and was substantial and in fact caused the Contractor to miss delivery dates, and could not adequately have been guarded against by contractual or legal means.
- B. **Notification of Delays.** The Contractor shall notify the Director of Procurement as soon as the Contractor has, or should have, knowledge that an event has occurred which will cause an unavoidable delay. The Contractor shall, without additional compensation, correct or revise any errors or deficiencies in its designs, drawings, specifications, and other services.
- b. Neither KCATA's review, approval or acceptance of, nor payment for the services required under this Contract shall be construed to operate as a waiver of any rights under this Contract or of any cause of action arising out of the performance of this Contract, and the Contractor shall be and remain liable to KCATA in accordance with applicable law for all damages to KCATA caused by the Contractor's negligent performance of any of the services furnished under this Contract.
- c. The rights and remedies of KCATA provided for under this Agreement are in addition to any other rights and remedies provided by law.

2. Design Within Funding Limitations.

- a. The Contractor shall accomplish the design services required under this Agreement so as to permit the award of a contract for the construction of the facilities designed at a price that does not exceed the estimated construction price set forth in the work order. When bids or proposals for the construction contract are received that exceed the estimated price, the Contractor shall perform such redesign and other services as are necessary to permit contract award within the funding limitation. These additional services shall be performed at no increase in the price of the work order. However, the Contractor shall not be required to perform such additional services at no cost to KCATA if the unfavorable bids or proposals are the result of conditions beyond its reasonable control.
- b. The Contractor will promptly advise KCATA's project manager if it finds that the project being designed will exceed or is likely to exceed the funding limitations and it is unable to design a usable facility within these limitations. Upon receipt of such information, KCATA will review the Contractor's revised estimate of construction cost. KCATA may, if it determines that the estimated construction contract price set forth in the work order is so low that award of a construction contract not in excess of such estimate is improbable, authorize a change in scope or materials as required to reduce the estimated construction cost to an amount within the estimated construction contract price set forth in the work order, or KCATA may adjust such estimated construction contract price. When bids or proposals are not solicited or are unreasonably delayed, KCATA shall prepare an estimate of constructing the design submitted and such estimate shall be used in lieu of bids or proposals to determine compliance with the funding limitation.

- c. Distribution of Drawings and Documents. Both parties to this Agreement understand that KCATA may distribute drawings, specifications or other documents to federal agencies or other transit agencies. Both parties to this Agreement understand and agree that any element of design or specifications taken out of the design concept for which it was originally intended by anyone other than the Contractor will relieve the Contractor of any liability for the altered design.

B. **Changes to Federal Requirements.** Contractor shall at all times be aware and comply with all applicable Federal Transit Administration (FTA) regulations, policies, procedures, and directives, including without limitation, those listed directly or by reference in the Master Agreement between the Authority and FTA (ref: MA 32 dated March 26, 2025), as they may be amended or promulgated from time to time during the term of this Contract. It is further agreed that the clause shall not be modified, except to identify the subcontractors who will be subject to its provisions.

C. **Debarment and Suspension Certification.**

1. 3. The Contractor agrees to refrain from awarding any subcontract of any amount (at any tier) to a debarred or suspended subcontractor, and to obtain a similar certification from any subcontractor (at any tier) seeking a contract exceeding \$25,000.
4. The Contractor agrees to provide KCATA a copy of each conditioned debarment or suspension certification provided by a prospective subcontractor at any tier, and to refrain from awarding a subcontract with any party that has submitted a conditioned debarment or suspension certification until FTA approval is obtained.

It is further agreed that the clause shall be included in each subcontract and shall not be modified, except to identify the subcontractor who will be subject to its provision.

The Contractor agrees to include the requirements of this clause in all subcontracts under this Contract.

G. Federal Tax Liability and Recent Felony Convictions.

1. The Contractor affirmatively represents and certifies that:
 - a. The Contractor does not have any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and if there is a federal tax liability that it is being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability; and
 - b. The Contractor was not convicted of the felony criminal violation under any Federal law within the preceding twenty-four (24) months.
2. Contractor is described as any private corporation, partnership, trust, joint-stock company, sole proprietorship, or other business association.
3. The Contractor agrees to include these requirements in all subcontracts at all tiers, regardless of value, and to obtain the same certification and disclosure from all subcontractors (at all tiers).

1. The Contractor acknowledges that the provisions of the Program Fraud Civil Remedies Act of 1986, as amended, 31 U.S.C. § 3801 *et seq.* and U.S DOT regulations, "Program Fraud Civil Remedies," 49 CFR Part 31, apply to its actions pertaining to the Project.
