SCOPE OF SERVICES**

2.1 Introduction

The Kansas City Area Transportation Authority (KCATA, ATA, Authority) is soliciting sealed proposals from qualified vendors to supply #2D Ultra Low Sulfur Diesel (ULSD) and 87 octane (or higher) gasoline. KCATA's average annual consumption is five hundred fifty thousand (550,000) gallons for diesel fuel and fifty-two thousand (52,000) gallons of 87 octane (or higher) gasoline delivered to KCATA's location in Kansas City, Missouri. Both types of fuel must meet the qualifications and specifications listed here for #2D Ultra Low Sulfur Diesel (ULSD).

2.2 Scope of Services

Although no minimum amounts are guaranteed, it is estimated that KCATA's average usage per year is approximately five hundred fifty thousand (550,000) gallons of ULSD annually and fifty-two thousand (52,000) gallons of 87-octane gasoline. Usage may depend on weather, fleet make-up having various energy sources used, and other variations. The proposer is responsible for all labor, equipment, materials, transportation, and supervision necessary to supply and deliver the product FOB to KCATA.

2.3 Definitions

Where the words "Authority", "KCATA", and "ATA", are used, reference is made to the Kansas City Area Transportation Authority. The terms "vendor," "contractor," and "proposer" are used herein interchangeably to reference the firms submitting proposals. 2. All gasoline quality standards are to be measured by Road Octane Rating (Research Octane plus Motor Octane divided by two) and shall meet or exceed the following requirements that are consistent with the efficient and effective operation of KCATA's fleet of vehicles and equipment.
3. Unleaded Gasoline must have a minimum 87 octane rating, reformulated and contain 10% Ethanol.
4. All unleaded gasoline fuel must be free of any suspended material and any trace of water. KCATA will not accept proposals on gasoline containing methanol.

2.5 Delivery

- A. Delivery shall be made to KCATA’s storage tanks at 1350 East 17th Street, Kansas City, Missouri 64108. Deliveries will be required on the average of one (1) to two (2) bulk truck loads per weekday. KCATA will request fuel deliveries by fax or email and will require confirmation of orders by the vendor. Each diesel fuel load will consist of seven to nine thousand (7,000-9,000) gallons per delivery of #2-D Ultra Low Sulfur Diesel. Each load of unleaded gasoline is to consist of one to two thousand (1,000-2,000) gallons per delivery. The number of gallons delivered and charged to KCATA will be determined based on fuel adjusted to a 60-degree temperature.
- B. All deliveries will occur on weekdays between 8:30 a.m. and 4:30 p.m. Central. Prompt delivery is essential in the performance of this contract. Delivery of quantities as large as 16,000 gallons must be made within 24 hours after an order is placed. Emergency deliveries will be received at any time – 24 hours per day. The contractor must address and coordinate the scheduling of fuel deliveries with KCATA’s staff in order to accommodate KCATA’s holiday schedule.
- C. The successful vendor shall provide a copy of the metered pipeline ticket, with fuel temperature noted, at the time of product delivery to KCATA. KCATA shall make semi-monthly payments to the Contractor for delivered quantities based on certified delivery tickets and adjusted for temperature variations. It will be the contractor’s responsibility to notify KCATA immediately of any delivery delays. Contact the KCATA Business Analyst at 816-346-0291.

2.6 Substitute Suppliers

If the Contractor fails, for any reason, to supply fuel to KCATA pursuant to the terms of the contract, at the time and in the amounts that KCATA requests, then KCATA shall have the right to purchase from any substitute source the amount of fuel due from the Contractor. If such substitute fuel is purchased, KCATA shall have the right, at its option, to either recover from the Contractor as liquidated damages or offset against the price due for fuel subsequently supplied by the Contractor, any amount by which the cost of such substituted fuel exceeds the contract price which would have been applicable. KCATA shall also have the right to recover the cost of any incidental expenses reasonably incurred by KCATA in making such substituted purchase(s) and the amount of any consequential damages allowable by law.

2.7 Fuel Sample Analysis

Deliveries of fuel under this contract are subject to a fuel analysis to determine compliance with the fuel specifications. KCATA will have fuel samples analyzed by an independent laboratory. This provision does not, in any manner, relieve the supplier of its responsibility to deliver fuel in accordance with these specifications. If the analysis reveals that the diesel does not meet the specifications, KCATA may terminate the contract for default, withhold payment for the delivered fuel and/or require the Contractor to remove the fuel from the tank.

2.8 Contract Pricing Structure

Proposals should be submitted for the pricing structure described below in #1, and an alternative pricing structure may be submitted as described in #2 as follows:

A. **Fixed Pricing and Rack Pricing Combination**

1. KCATA will purchase 87-octane gasoline and diesel fuel in one of two ways – either on fixed pricing for future fuel delivery for a specific time period or off the daily spot market (rack) price in Kansas City. KCATA must be provided the option of purchasing fuel under either method at KCATA’s sole discretion. A Contract will result from this RFP and govern the markup by the supplier on rack prices on the New York Mercantile Exchange (NYMEX) price, RBOB, in fixed-price contracts.
2. Mark-ups will remain constant for the period for which they are proposed. Mark-ups should be rounded back to four (4) decimal places. Proposers are required to clearly itemize the elements comprising their markup.
 - a. **Fixed Pricing** is the most common method of purchasing fuel used by KCATA.
 - 1) This method allows KCATA to enter a contract with the supplier at a fixed price for delivery of a specific amount of ULSD for a specific month(s) in the future when KCATA determines that such prices are advantageous. KCATA has been able to lock-in prices for fuel delivery as far as eighteen (18) months into the future, depending on how far out the NYMEX was trading.
 - 2) The NYMEX (NY Harbor ULSD Futures contract) price at the time of verbal agreement between the supplier and KCATA will be used. KCATA will use the CME Group pricing as displayed through internet postings for quoted NYMEX prices for verification of the reasonableness of the NYMEX price used in individual quotes.
 - 3) The Proposer will quote a fixed mark-up to be added to the locked in NYMEX (NY Harbor ULSD Futures Contract)price per gallon for Winter Blend. The mark-up will be locked-in for the contract term, including option years if exercised.
 - 4) Fixed mark-up proposals to be added to the NYMEX price should include the following on a per gallon basis:
 - Differentials:
 - Quality differential – refining to produce #2 ULSD fuel
 - Geographical differential for supplying to the Kansas City marketplace (Group III – Midwest)
 - Any other differential not addressed above
 - Supplier’s margin or profit.
 - Delivery or transporting from the terminal to KCATA’s fuel tanks at 1350 E. 17th Street, Kansas City, Missouri 64108.
 - Other markups necessary for fuel from the New York harbor (as quoted on NYMEX) is delivered into KCATA owned tanks.
 - 5) A contract amendment, or a “locked agreement”, will be executed when agreement is reached on a total fixed price per gallon for delivery of a specific amount of fuel for a specific future time period. The locked agreement may be as simple as a confirmation from the supplier stating the locked price per gallon, number of gallons, and month(s) of delivery, signed in agreement by KCATA. Multiple amendments may be exercised over the contract term.
 - 6) The Contractor will be asked to notify KCATA when fuel prices can be locked at or below a certain price for future time periods.

b. Rack Pricing

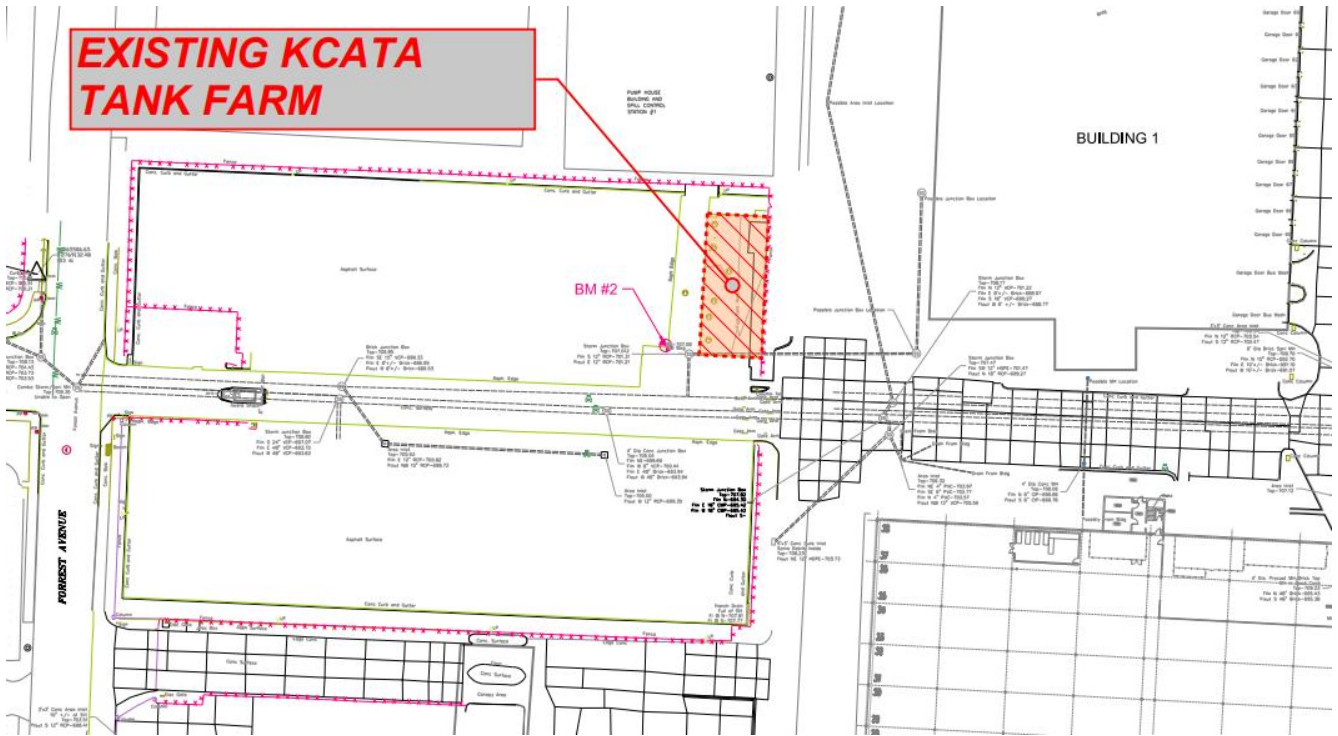

- 1) KCATA reserves the right to not lock prices and to pay the spot market prices at the terminal on the day of fuel delivery, plus a fixed mark up from the supplier as stated in the Contract. The spot market price will be reasonable for the Kansas City market on a daily basis. The awarded Contractor will supply to KCATA, at no cost to KCATA, a subscription to OPIS reports for the Kansas City market area, for the term of the contract. The reports will show the OPIS daily and monthly averages for ULSD and gasoline for the Kansas City market area.
- 2) The Proposer is asked to identify the refiner from which KCATA fuel will be pulled, the terminal location and the refiner's rack price on specific dates for comparison of rack prices.
- 3) The fixed markup on the rack price should include the following:
 - Supplier's markup or profit;
 - Delivery or transporting from the terminal used by the supplier to KCATA's fuel tanks at 1350 East 17th Street, Kansas City, Missouri 64108; and
 - Other markups not addressed above that are necessary to ensure delivery to KCATA owned tanks.

B. Alternative Pricing Proposals

1. KCATA may consider alternative pricing structures proposed by suppliers, compliant with the requirements for fixed pricing and rack pricing that achieve KCATA's goal of obtaining the most favorable pricing and provide the best value during the contract term.
2. Proposers shall clearly identify and detail the alternative pricing structure to include and itemize all direct and indirect costs associated with execution and performance of the terms of this solicitation. The Proposer should provide a narrative description of the alternative pricing along with examples so that KCATA can obtain a full understanding of the proposal.

Notwithstanding the foregoing, in response to a formal request for information, the KCATA reserves the right to release any documents if the KCATA determines that such information is a public record pursuant to the Missouri Sunshine Law.

- B. KCATA's diversity programs are subject to the requirements of 49 CFR Part 26, and it is KCATA's policy to:
1. Ensure nondiscrimination in the award and administration of contracts;
 2. Create a level playing field on which diverse firms can compete fairly for DOT-assisted contracts;
 3. Ensure that KCATA's diversity programs are narrowly tailored in accordance with applicable law;
 4. Ensure that only firms that fully meet 49 CFR Part 26 eligibility are permitted to participate in the programs;
 5. Help remove barriers to the participation of diverse firms in contracts;
 6. To promote the use of diverse firms in all types of contracts and procurement activities; and
 7. Assist in the development of firms that can compete successfully in the marketplace outside the diversity programs.
- C. Funding for projects under these contracts may be funded in part by the federal agencies (i.e., Federal Transit Administration (FTA), Federal Emergency Management Administration (FEMA)), or may be a combination of funds appropriated by the state, county, or city governments. *Federally funded projects will be subject to DBE and SBE requirements. For projects funded by other sources, MBE, WBE or SLBE requirements will apply.*
- D. There is no diversity goal established for this project.
- E. **Non-discrimination.** Proposers shall not discriminate on the basis of race, color, creed, age, sex, sexual orientation, gender identity, national origin, or disability in the performance of this project. The Proposer shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of contracts. Failure by the Proposer to carry out these requirements is a material breach of the resulting contract, which may result in the termination of the contract or such other remedy as KCATA deems appropriate.
- F. **Recognized Certifications.**
1. Minority Owned Business Enterprises (MBEs), Woman Owned Business Enterprises (WBEs) and Small Local Business Enterprises (SLBEs). These programs apply to non-federally funded projects. 2. When appropriate, KCATA's projects may be set-aside for Small Business Enterprises or Small Local Business Enterprises.

G. **Diverse Participation Credit.** Diverse firms may participate as Prime Contractors, Subcontractors, or Suppliers. The following shall be credited towards achieving the goals, except as provided herein:

1. The total contract dollar amount that a qualified diverse Prime Contractor earns for that portion of work on the contract that is performed by its own workforce, is performed in a category in which the Prime is currently certified and is a commercially useful function as defined by the Program.
2. The total contract dollar amount that a Prime Contractor has paid or is obligated to pay to a subcontractor that is a qualified diverse firm; and
3. Subcontractor participation with a lower tier diverse subcontractor; and
4. Sixty percent (60%) of the total dollar amount paid or to be paid by a Prime Contractor to obtain supplies or goods from a supplier who is not a manufacturer and who is qualified as a diverse firm. If the diverse firm is a manufacturer of the supplies, then one hundred percent (100%) may be credited, to be determined on a case-by-case basis.
5. NO CREDIT, however, will be given for the following:
 - a. Participation in a contract by a diverse firm that does not perform a commercially useful function as defined by the Program; and
 - b. Any portion of the value of the contract that a diverse Subcontractor subcontracts back to the prime contractor or any other contractor who is not qualified as a diverse firm; and
 - c. Materials and supplies used on the contract, unless the diverse firm is responsible for negotiating the price, determining quality and quantity, ordering materials, installing (where applicable), and paying for the material itself; and
 - d. Work performed by a diverse firm in a scope of work other than that in which the firm is currently certified.
6. **Good Faith Efforts.** Failure to meet the contracted diversity participation commitment without documented evidence of good faith efforts may result in termination of the contract.
 - a. In evaluating good faith efforts, KCATA will consider whether the Proposer has performed the following, along with any other relevant factors:
 1. Soliciting through all reasonable and available means (e.g., attendance at pre-proposal conferences, advertising, and/or written notices) the interest of all certified diverse firms who have the capability to perform the work of the contract. The Proposer must solicit this interest within sufficient time to allow the qualified firms to respond to the solicitation. The Proposer must determine with certainty if the firms are interested by taking appropriate steps to follow up on initial solicitations. Copies of the solicitation efforts (dated facsimiles, advertisements, emails) must be submitted.
 2. Selecting portions of the work to be performed by diverse firms in order to increase the likelihood that the diversity goals will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate diversity participation, even when the prime contractor might otherwise prefer to perform these work items with its own forces.

3. Providing interested diverse firms with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation.
 4. Negotiating in good faith with interested firms.
 5. It is the Proposer's responsibility to make a portion of the work available to diverse subcontractors and suppliers and to select those portions of the work or material needs consistent with the available diverse subcontractors and suppliers, so as to facilitate diverse participation. Evidence of such negotiation includes the names, addresses, and telephone numbers of diverse firms that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional agreements could not be reached for diverse firms to perform the work.
 6. A Proposer using good business judgment would consider a number of factors in negotiating with subcontractors, include diverse subcontractors, and would take a firm's ice and capabilities as well as contract goals into consideration. However, the fact that there may be some additional costs involved in finding and using diverse firms is not in itself sufficient reason for a Proposer's failure to meet the contract diversity goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the bidder of the responsibility to make good-faith efforts. Prime contractors are not, however, required to accept higher quotes from diverse firms if the price difference is excessive or unreasonable.
 7. Not rejecting diverse firms as being unqualified without sound reasons based on a thorough investigation of their capabilities. The contractor's standing within its industry, membership in specific groups, organizations, associations, and political or social affiliations (for example union vs. non-union employee status) are not legitimate causes for the rejection or non-solicitation of bids in the contractor's efforts to meet the project goal.
 8. Making efforts to assist with interested diverse firms in obtaining bonding, lines of credit, or insurance as required by the KCATA or contractor.
 9. Making efforts to assist interested diverse firms in obtaining necessary equipment, supplies, materials, or related assistance or services.
 10. Effectively using the services of available minority/women community organizations; minority/women contractors' groups; local, state, and Federal minority/women business assistance offices; and other organizations as allowed on a case-by-case basis to assist in the recruitment and placement of diverse firms.
 11. In determining if the Contractor did use good faith efforts in securing participation by qualified diverse firms, KCATA may request copies of each subcontractor quote (diverse and non-diverse) in the event a non-diverse subcontractor was selected over a diverse for work on the contract.
7. **Request for Modification, Replacement or Termination of Disadvantaged Business Enterprise (DBE) Project Participation.** Contractor is responsible for meeting or exceeding the DBE commitment it has proposed for the project and as amended by any previously approved Request for DBE Modification/Substitution. Any change orders or amendment modifying the amount Contractor is to be compensated will impact the amount of compensation due to DBEs for purposes of meeting or exceeding the Proposer commitment. Contractor shall consider the effect of a Change Order or amendment and

submit a Request for Modification/Substitution if the DBE commitment changes.

- a. **Termination Only for Cause** - Once the contract has been awarded; Contractor may not terminate a DBE subcontractor without KCATA's prior written consent. This includes, but is not limited to, instances in which a Contractor seeks to perform work originally designated for a DBE subcontractor with its own forces or those of an affiliate, a non-DBE firm, or with another DBE firm.
- b. **Good Cause** - Good cause includes the following circumstances:
 - 1) The listed DBE subcontractor fails or refuses to execute a written contract; or
 - 2) The listed DBE subcontractor fails or refuses to perform the work of its normal industry standards. Provided, however, that the good cause does not exist if the failure or refusal of the DBE subcontractor to perform its work on the subcontract results from the bad faith or discriminatory action of the Prime Contractor; or
 - 3) The listed DBE subcontractor fails or refuses to meet the Prime Contractor's reasonable, nondiscriminatory bond requirements; or
 - 4) The listed DBE subcontractor becomes bankrupt, insolvent, or exhibits credit unworthiness; or
 - 5) The listed DBE subcontractor is ineligible to work on public works projects because of suspension and debarment proceedings pursuant to 2 CFR Parts 180, 215 and 1200 or applicable state law; or
 - 6) The DBE subcontractor is not a responsible contractor; or
 - 7) The listed DBE subcontractor voluntarily withdraws from the project and provides the Prime Contractor written notice of its withdrawal;
 - 8) The listed DBE is ineligible to receive DBE credit for the type of work required;
 - 9) A DBE owner dies or becomes disabled with the result that the listed DBE contractor is unable to complete its work on the contract;
 - 10) Other documented good cause that compels KCATA to terminate the DBE subcontractor. Provided the good cause does not exist if the Prime contractor seeks to terminate a DBE it relied upon to obtain the contract so that the Prime Contractor can self-perform the work for which the DBE contractor was engaged or so that the Prime Contractor can substitute another DBE or non-DBE contractor.
- c. Before submitting its request to terminate or substitute a DBE subcontractor, the Prime Contractor must give notice in writing to the DBE subcontractor, with a copy to KCATA, of its intent to request to terminate and/or substitute, and the reason for the request.
- d. The Prime Contractor must give the DBE five days to respond to the Prime Contractor's notice and advise the KCATA and the Contractor of the reasons, if any, why it objects to the proposed termination of its subcontract and why KCATA should not approve the Prime Contractor's action. If required in a particular case as a matter of public necessity (e.g., safety), the response period may be shortened.

SECTION 4.
PROPOSAL SUBMISSION, EVALUATION AND AWARD

4.1 Introduction

The intent of the RFP is to encourage submittals that clearly communicate the contractor's qualifications for the Project. Proposals should provide information in a concise, and well-written, well-organized manner containing only information relevant to this Project. All proposals should follow the format specified below as this will assist the evaluation committee in determining the most highly qualified contractor. Firms are encouraged to submit only proposal material that is relative to the contractor services and scope cited. Including extra marketing materials and publications is discouraged.

4.2 Proposal Format

- A. Volumes shall be submitted in the following order:
 - b. Volume 1: Price Proposal
 - c. Volume 2: Technical Proposal
 - d. Volume 3: Contractual Documents
- B. Proposers shall submit each Volume as a separate document in .pdf format. Each document is to be labeled with the volume number and the Proposer's name.
- C. **No Cost Proposal information is to be included within Volumes 2 and 3** (with exception to the pricing in Attachment G, "Letter of Intent to Subcontract with DBE" (Volume 3). Volumes 1 and 3 are not shared with the evaluation team.

4.3 Volume 1 – Price Proposal

- A. Proposers are asked to submit a Price Proposal (Attachment C) that includes all costs associated with the provision of the services as described in Section 2, "Scope of Services."
- B. The prices must be fair and reasonable and should include all items of labor, materials, and other costs necessary to perform the contract. Any items omitted from this RFP which are clearly necessary for the completion of the work being proposed should be considered part of the work though not directly specified or called for in this RFP.
- C. The Price Proposal(s) shall be submitted in a separate PDF. **No price information is to be included in the Technical Proposal (Volume 2).**
- D. Proposers may submit additional pages as necessary. Each additional page shall be labeled with the Proposer's Name and signed by the Authorized Representative.
- E. Proposals for alternative pricing shall be clearly marked as such.

- A. The Technical Proposal page limit is 30 pages. The Proposer may choose to allocate pages between any of the evaluation criteria as long as the Proposal does not exceed 30 pages. If a Proposer submits a proposal exceeding this limit, KCATA will consider the pages up to the allowable number and discard all subsequent pages.
- B. One page is defined as one side of a single, 8-1/2 x 11" page, with 11-point minimum font size for the substantive text. Any page over this size will be counted as two (2) pages. Any page or partial page with substantive text, tables, graphics, charts, etc., will be counted as one (1) page. Each technical proposal must be so specific, detailed, and complete as to clearly and fully demonstrate that the Proposer has a thorough knowledge and understanding of the requirements and has valid and practical solutions for technical problems. Statements which paraphrase the requirements or state that "standard procedures will be employed" are inadequate to demonstrate how the Proposer will comply with the requirements of this procurement.

E. To achieve a uniform review process and obtain the maximum degree of compatibility, technical proposals must be organized as follows:

1. **Letter of Transmittal.** The letter should be addressed to Kristen Emmendorfer, KCATA Procurement Director, and signed by a corporate officer with authority to bind the firm. The letter must contain the following:

2. To begin, you must set up an account at <https://kcata.diversitycompliance.com> where you will be given a temporary password. You will receive a confirmation email and be directed to change your password. You may follow the instruction guide to complete the process. B2GNow also conducts webinars that provide guided training on navigating the system and its available features.

3. Prime Contractors must complete the online Vendor Registration Questionnaire. Subcontractors are encouraged to register to be included in notices of future solicitations.

4. Current IRS Form W9.

5. **Optional Documents.** Firms have the option to attach additional documents to the Questionnaire, including brochures, insurance certificates and bonds.

6. For questions on these requirements, or for assistance in completing the forms, please contact Carla Mann, KCATA's Diversity, Equity, and Inclusion Specialist at (816) 346-0208 or via email at cmann@kcata.org.

D. Forms Due with Proposal Submission: The following forms are required and must be provided as part of **Volume 3**.

9. **Receipt of Addenda.** If an Addendum is issued as part of this RFP, please provide the "Receipt of Addenda" form that was issued with Addendum #1.

4.6 **Proposal Evaluation Criteria**

- A. This is a "Best Value," competitive, negotiated source selection. Award of contract, if made, will be made to the responsive and responsible Proposer whose offer conforming to the solicitation is judged by an integrated assessment of the evaluation criteria to be the most advantageous to KCATA, price/cost and other factors considered. **For this procurement, all evaluation factors other than cost/price, when combined, are more important than cost/price.**
- B. KCATA may select other than the lowest cost/priced, technically acceptable offer if it is determined that the additional technical merit offered is worth the additional cost in relation to other proposals received. KCATA is more concerned with obtaining excellent technical features than with making an award at the lowest overall cost/price to the Project. However, KCATA will not make an award at a significantly higher overall cost to achieve only slightly superior technical features.
- C. Proposers are further cautioned that KCATA may not necessarily make an award to the Proposer with the highest - technical ranking if doing so would not represent the best value to KCATA. For evaluation purposes, if proposals become more technically equivalent, cost/price becomes more important and may be the deciding factor.
- D. Proposals will be evaluated by a Selection Committee based on the following criteria which are listed in descending order of importance.
 - 1. **Technical Experience and Qualifications.** Proposer's experience, equipment, financial standing, and ability to service KCATA for both routine and emergency delivery needs.
 - 2. **Past Performance.** Proposer's performance record with emphasis on awarding to only established, reputable distributors and dealers.
 - 3. **Price Proposal.** Pricing and other factors affecting KCATA's total cost for the purchase and delivery of fuel is considered fair and reasonable and within a competitive price range.
 - 4. **Local Experience and/or Familiarity.** Qualifications and understanding of KCATA's fuel management program including potential challenges.
- E. If in its best interest, KCATA reserves the right to make an award to more than one Proposer.

4.7 Presentations/Interviews/Written Responses

Highly qualified Proposers submitting responsive and responsible proposals may be invited to interview with the evaluation committee at their own expense. The evaluation committee may also require a Proposer(s) to submit written responses to questions regarding its proposal. Proposers selected for interview will be notified. Interviews will be held virtually through Microsoft Teams.

4.8 Contractor Selection

- A. Based on the evaluation process described above, the Evaluation Committee will determine the best-qualified firm/team for this project and, if required, begin negotiations with selected firm. If negotiations are successful, the Evaluation Committee will recommend the best-qualified firm/team to KCATA's Board of Commissioners for final authorization.
- B. If KCATA fails to reach an agreement with the top-ranked team, the KCATA will begin negotiations with the second ranked firm/team.

4.9 Contract Award

The selected Proposer shall only perform work on the Contract after the effective date is affixed and the fully executed contract sent to the selected proposer. KCATA shall issue a written Notice to Proceed to the selected Proposer authorizing the work to begin on a date which is on or after the effective date. The selected Proposer shall not start the performance of any work prior to the date set forth in the Notice to Proceed and KCATA shall not be liable to pay the selected Proposer for any service or work performed or expenses incurred before that date. No KCATA employee or Board member has the authority to verbally direct the commencement of any work under the contract.

KCATA reserves the right and shall be at liberty to inspect all deliverables at any time during the Contract term, and shall have the right to reject all services or deliverables which do not conform with the conditions, Contract requirements or specifications; provided, however, that KCATA is under no duty to make such inspection, and Contractor shall (notwithstanding any such inspection) have a continuing obligation to furnish all services and deliverables in accordance with the instructions, Contract requirements and specifications. Until delivery and acceptance, and after any rejections, risk of loss will be on the Contractor, unless loss results from negligence of KCATA.

Provided the good cause does not exist if the Prime contractor seeks to terminate a diverse firm it relied upon to obtain the contract so that the Prime Contractor can self-perform the work for which the diverse contractor was engaged or so that the Prime Contractor can substitute another diverse or non-diverse contractor.

2. Before submitting its request to terminate or substitute a diverse subcontractor, the Prime Contractor must give notice in writing to the diverse subcontractor, with a copy to KCATA, of its intent to request to terminate and/or substitute, and the reason for the request. The Prime Contractor must give the diverse firm five days to respond to the Prime Contractor's notice and advise the KCATA and the Contractor of the reasons, if any, why it objects to the proposed termination of its subcontract and why KCATA should not approve the Prime Contractor's action. The Contractor will only be paid the Contract price for supplies delivered and accepted or work or services performed in accordance with the manner of performance set forth in the Contract.
- B. **Funding Contingency.** If this Contract is subject to financial assistance provided by the U.S. Department of Transportation, the Contractor agrees that withdrawal or termination of such financial assistance by the U.S. DOT may require KCATA to terminate the agreement.
- C. **Termination for Default.**
 - 1. Termination shall be effected by serving a notice of termination on the Contractor setting forth the manner in which the Contractor is in default. The Contractor will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner of performance set forth cost of the Contract.
 - 2. If the termination is for failure of the Contractor to fulfill the contract obligations, KCATA may complete the work by contract or otherwise and the Contractor shall be liable for any additional cost incurred by KCATA. If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, KCATA, after setting up a new delivery or performance schedule, may allow the Contractor to continue work, or treat the termination as a termination for convenience.
- D. **Opportunity to Cure.** KCATA in its sole discretion may, in the case of a termination for breach or default, allow the Contractor an appropriately short period of time in which to cure the defect. In such case, the written notice of termination will state the time period in which cure is permitted and other appropriate conditions. If Contractor fails to remedy to KCATA's satisfaction the breach or default of any of the terms, covenants, or conditions of this Contract within the time period permitted, KCATA shall have the right to terminate the Contract without any further obligation

to Contractor. Any such termination for default shall not in any way operate to preclude KCATA from also pursuing all available remedies legal and non-legal against Contractor and its sureties for said breach or default.

- E. **Waiver of Remedies for any Breach.** In the event that KCATA elects to waive its remedies for any breach by Contractor of any covenant, term or condition of this Agreement, such waiver by KCATA shall not limit KCATA's remedies for any succeeding breach of that or of any other term, covenant, or condition of this Agreement.
- F. **Property of KCATA.** Upon termination of this Contract for any reason, and if the Contractor has any property in its possession or under its control belonging to KCATA, the Contractor shall protect and preserve the property or pay KCATA full market value of the property, account for the same, and dispose of it in the manner KCATA directs. 39. UNAVOIDABLE DELAYS

- A. A delay is unavoidable only if the delay was not reasonably expected to occur in connection with or during the Contractor's performance, and was not caused directly or substantially by acts, omissions, negligence, or mistakes of the Contractor, the Contractor's suppliers, or their agents, and was substantial and in fact caused the Contractor to miss delivery dates and could not adequately have been guarded against by contractual or legal means.
- B. **Notification of Delays.** The Contractor shall notify the Director of Procurement as soon as the Contractor has, or should have, knowledge that an event has occurred which will cause an unavoidable delay. Within five (5) days, the Contractor shall confirm such notice in writing, furnishing as much detail as is available.
